

**REPUBLIC OF KENYA**  
**COUNTY ASSEMBLY OF SAMBURU**  
**THIRD ASSEMBLY – THIRD SESSION**

---

**MOTION**

**Hon. Speaker,** Pursuant to standing order no. 47, I beg to move the following motion;

**AWARE THAT,** Samburu County has started the formation of **village resource distribution units**

**AWARE THAT,** there is already established the village units under the Samburu County Village Delineation Act of 2015.

**NOTING THAT,** These village units are established pursuant to section 48 of County Government Act, 2012.

**FURTHER NOTING THAT,** Section 53 of the County Government Act, 2012 establishes for each village unit a village council.

**DISTURBED THAT,** that the established village resource distribution units formed by the county government incurs unnecessary resources that could greatly help in executing so many other important activities within the county especially the October-December el-nino rains that has wrecked a havoc across the county.

**AWARE THAT,** the responsibilities of the village resource distribution units are the same as those of the already established village units and bursary committees hence duplication of roles.

**FURTHER NOTING THAT**, the county government has established units that are not formed under any county legislations and so no approval from the county assembly.

**ACKNOWLEDGING THAT**, the village delineation units need capacity building to perform functions as stipulated by the county government act.

**CONCERNED THAT**, the county government is continuously performing functions that were not budgeted for in the previous budget cycle such as the formation of this units.

**SERIOUSLY CONCERNED THAT**, this will greatly affect the implementation of the current budget and contradict both national legislation and already passed county legislations.

**I, therefore, urge this Assembly to RESOLVE:**

1. **THAT**, establishing of the village resource distribution units by the county executive is in contradiction of existing legislations hence their formation is null and void.
2. **THAT**, the Samburu County government should forward a detailed report of all budgetary spending towards the formation of the already existing village resource distribution units.
3. **THAT**, the county government should forward a detailed report of the current situation of the village councils and bursaries ward committees.
4. **THAT**, the Samburu County government concentrates in improving the already available governance structure by capacity building village councils.
5. **THAT**, ensure that they work within the provided legal framework that is ensure that all action conform to national and county laws

6. **That,** there is no more budget deviations from what was approved by the county assembly.

Thank you Hon. Speaker.
